

FERRIC ACETYLACETONATE

CAS No. 14024-18-1

Specifications:

Tests	Specification
Appearance	Red crystal
Assay	≥98.00%
Ferric	15.5%~16.0%

Package: 25Kg/Drum

Application:

- Ferric acetylacetonate, an essential β-diketone complex, serves as a resin crosslinker, cure accelerator, rubber additive, fuel oil additive, and chemical reaction catalyst, among other applications.

Storage: Keep container tightly closed. Store in a cool, dark place away from incompatible materials such as oxidizing agents.

Recommend Shelf Life: 12 months.
