

# LANOX 168

## Tris-(2,4-di-tert-butylphenyl)phosphite

CAS No. 31570-04-4

### Specifications:

Item	Specification
Appearance	White powder
Assay	≥99.0%
Volatile	≤0.30%
Transmittance	425nm ≥98.0% 500nm ≥98.0%
Melting point	183.0~187.0°C
Acidity	≤0.30 mgKOH/g
Free 2,4-ditertbutylphenol	≤0.20%

**Package:** 20Kg Bag

### Application:

LANOX 168 is a kind of phosphite ester antioxidant. It has a good synergistic with other antioxidants, for example, LANOX 1010, LANOX 1076. It is widely used for PE, PP, PC resin, etc. The dosage is recommended to be 0.1~1.0%. LANOX 168 can also be used in food-contacting plastics.

**Storage:** Keep container tightly closed in a dry and well-ventilated place.

**Recommend Shelf Life:** 12 months
