

LANOX - 626

Antioxidant 626

CAS No. 26741-53-7

Specifications:

Tests	Specification
Melting Point	170-180°C
Volatiles	≤1.0%
Acidity	≤1.0%
Alkyl Hydroxybenzene	≤1.0%
Content	≥95%

Package: 25Kg Box.

Application:

The product is a kind of high-effective solid phosphite ester antioxidant, which is superior to other phosphite ester in the effective protection of polymers' color. Improves the thermo-stability of polymer processing, thus making it widely applied in PE, PP, PS, PA, PC, ABS and many other polymer materials.

Storage:

Because of the low performance on hydrolyzing resistance, protection from moisture and heat is needed.

Recommend Shelf Life: 12 months
