

# URACIL

## 6-Amino-1,3-dimethyluracil

CAS No. 6642-31-5

### Specifications:

Items	Specification
Appearance	Off-white or yellowish fine powder
Assay	≥99.0%
Loss on drying	≤1.0%

**Package:** 25Kg Bag

### Application:

- It can be used with solid or liquid calcium/zinc, barium/zinc and other heat stabilizers, can greatly improve PVC initial coloring, transparency, and long-term stability, as well as the precipitation and 'zinc fever' in processing.
- It has very good synergistic effect to 'zinc soap', suitable to implement in rigid, non-toxic, tasteless field, promote the upgrading of the Calcium/Zinc compound stabilizer.
- it is widely used in medical, food packaging and other non-toxic transparent PVC products (such as PVC bottles, sheets, a transparent film etc.).

**Storage:** Keep container tightly closed in a dry and well-ventilated place.

**Recommend Shelf Life:** 12 months
