

YAC-BSA

N,O-Bis(trimethylsilyl)acetamide

CAS No.10416-59-8

Specifications:

Item	Specification
Appearance	Colorless to pale yellow transparent liquid
Content	≥98%
Purity	≥95%
Triethylamine	≤0.20%

Package: 160Kg Plastic Drum, Nitrogen Charging

Application:

- ◆ Derivatization reagent for GC-MS analysis of phenolic acids in fruits.
- ◆ Reagent for the regioselective desulfation of polysaccharide sulfates. Also used to prepare trimethylsilyl ethers of carbohydrates and alcohols.

Storage: Corrosive & Flammable Liquid. Keep container tightly closed in a dry and well-ventilated place. Air & moisture sensitive.

Recommend Shelf Life: 12 months
