

YAC-D136

Dimethoxydimethylsilane

CAS No. 1112-39-6

Specifications:

Items	Specification
Appearance	Colorless transparent liquid
Assay	≥99.0%
Density	0.850~0.890g/cm ³
Refractive index	1.3708(25℃)
Acid value	≤0.01(in Cl) %

Package: Iron drum or plastic drum sealed. Net weight: 50kg, 170kg.

Application:

- Mainly used in silicone resin as modifier, silicone rubber compound structure control agent and chain extender.
- Usually used as a structure control agent、chain extender、filler treatment agent.
- Widely used in the treatment of organic silica gel and silica.

Transportation:

- Prevent rainx sun exposure, and transport as dangerous goods.

Storage: No exposure to fire、store in a cool、dry place.

Recommend Shelf Life: 12 months
