

## Octamethylcyclotetrasiloxane (D4)

CAS No. 556-67-2

### Specifications:

Item	Specification
Appearance	Colorless Transparent Liquid
Assay (GC)	≥98%

**Package:** 20Kg Drum (air shipment) / 190Kg Drum (sea shipment)

### Application:

- ◆ Preparation of methyl silicon oils.
- ◆ Used as a raw material for silicone, also used in the electronics industry
- ◆ Used in the manufacture of high tear-resistant silicone rubber products, and also used in the synthesis of other polymer compounds

**Storage:** Flammable liquid. Keep container tightly closed in a dry and well-ventilated place. Keep away from sources of ignition.

**Recommend Shelf Life:** 12 months
