

YAC-HMDS

Hexamethyldisilazane

CAS No. 999-97-3

Specifications:

Items	Specification
Appearance	Colorless transparent liquid
Assay	≥99.0%
Hexamethyldisiloxane	≤0.5%
Trimethylsilanol	≤0.5%
Other impurity	≤0.2%

Package: 150Kg Drum

Application:

- For the synthesis of antibiotics, anti-HIV drugs, blood-lipid lowering drug and so on;
- As structure control agent in silicone rubber; surface treatment of diatomite, silica, titanium powder;
- Bonding agent for etching machine in semiconductor industry

Storage: Flammable & toxic liquid. Store under nitrogen. Keep container tightly closed in a dry and well-ventilated place. Keep away from heat and sources of ignition. Hydrolyzes readily.

Recommend Shelf Life: 12 months
