

# YAC-O187

## 3-Glycidoxypropyltrimethoxysilane

CAS No. 2530-83-8

### Specifications:

Items	Specification
Appearance	Colorless transparent liquid
Assay	≥98.0%
Chloride	≤10ppm
Density	1.065~1.075g/cm <sup>3</sup>
Refractive index	1.4260~1.4280

**Package:** 200Kg Drum

### Application:

- Finish or a size ingredient for glass fiber / glass fabric composites;
- Additive to polyurethane resins for foundry resins;
- Primer or additive for sealants and adhesives;
- For pretreatment of fillers and pigments or as an additive to the polymer of mineral filled composites;
- Additive and primer for improving adhesion of paints and coatings to the substrate, especially glass and metal.
- Improve shelf life over amino silane in polyurethanes.

**Storage:** Non dangerous cargo. Keep away from open flames, hot surfaces and sources of ignition. Keep container tightly closed.

**Recommend Shelf Life:** 12 months
