

YASIL-A112T

Specifications:

Items	Specification
Appearance	Colorless transparent or light-yellow liquid
Chromaticity (Gardner)	<70
Density (20°C, g/cm ³)	1.0600±0.02
Viscosity (20°C, mPa·s)	35-80
Refractive Index (n _{25D})	1.4400 ± 0.005

Package: 25L / 200L Drum or 1000L IBC

Application:

YASIL-A112T can be used as additive or primer in coatings or adhesives and sealants industries. When used as an additive, it can be used in omitting some special primer steps for Multiple bonding applications. In special systems such as RTV silicone rubber and hybrid silane crosslinking, YASIL-A112T can also improve their adhesion.

YASIL-A112T can also be used for the treatment of inorganic fillers. In the process of mixing with the resin system, can get functional inorganic filler with unique properties.

Storage: Store in a low temperature, ventilated and dry place.

Recommend Shelf Life: 12 months
