

# YAC-C123

## Chloromethyltriethoxysilane

CAS No. 15267-95-5

### Specifications:

| Tests                   | Specification                |
|-------------------------|------------------------------|
| Appearance              | Colorless transparent liquid |
| Purity                  | ≥98 %                        |
| Active ingredient       | 100 %                        |
| Specific gravity (25°C) | 1.01 g/ml-1.02 g/ml          |
| Boiling point           | 75°C-95°C (5mmHg)            |
| PH                      | 6-7                          |

**Package:** 2\*10KG/Item,25KG/Barrel,25KG/Barrel.

### Application:

- It is used as an intermediate in the synthesis of ND series coupling agents.

**Storage:** The product should be sealed and stored at room temperature (15-35°C) in the dark; The container should be resealed immediately after opening and use to repel steam from entering to produce hydrolysis.

**Recommend Shelf Life:** 12 months.
