

YACIL-OH350

Silanol Terminated Polydimethylsiloxane

CAS No. 70131-67-8

Specifications:

Tests	Specification
Appearance	Colorless Transparent Liquid
Viscosity (25°C)	315mPa.s-385mPa.s
Volatile Fractions (150°C*3h)	<1.00%

Package: 5Kg Bucket.

Application:

- It is used as a finishing agent for various fibers and fabrics.

Storage: Keep away from open flames, hot surfaces and sources of ignition. Keep container tightly closed.

Recommend Shelf Life: 12 months.
