

YAC-P13

Phenyltrimethoxysilane

CAS No. 2996-92-1

Specifications:

Tests	Specification
Appearance	Clear to straw liquid with mild odor
Purity	≥99.0%
Density(g/cm ³ ,20°C)	1.064
Refractive Index(n _{25D})	1.460

Package: 25Kg or 200kg/drum.

Application:

- Phenyltrimethoxysilane can be used as silicon resin crosslinking agent, also can be used as the raw material of phenyl silicone oil.

Storage: Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store in cool place. Moisture sensitive.

Recommend Shelf Life: 12 months.
