

YAC-P13

Phenyltrimethoxysilane

CAS No. 2996-92-1

Specifications:

Tests	Specification
Appearance	Colorless transparent liquid
Assay	≥98.0%
Color (Pt-Co)	≤30
Refractive Index (n _D ²⁵)	1.4650~1.4750

Package: 200Kg/Drum

Application:

- It can be used as a crosslinking agent for phenyl silicone resin.
- The raw material for the synthesis of phenyl silicone oil.
- Material surface hydrophobic treatment.
- It can also be used for the modification of inorganic filler.

Storage: Keep container tightly closed in a dry and well-ventilated place. Keep away from heat and sources of ignition.

Recommend Shelf Life: 12 months.
