

YAC-TIPS

Triisopropylsilane

CAS No. 6485-79-6

Specifications:

Tests	Specification
Appearance	Colorless transparent liquid
Assay	≥99.0%

Package: 15Kg/Drum, 20Kg/Drum or 140Kg/Drum

Application:

- It is a hindered hydrosilane that is often used as a cation scavenger to remove amino acid protecting groups during peptide synthesis.
- It is an important sterically hindered silicone protectant, which is mainly used to protect various types of hydroxyl groups, especially in multifunctional hydroxyl compounds, which can be selectively protected and deprotected.

Storage: Keep away from open flames, hot surfaces and sources of ignition. Keep container tightly closed.

Recommend Shelf Life: 12 months.
