LANYACHEM
"The Chemistry We Serve"

LANSTAB-THEIC

Tris (2-Hydroxyethyl) Isocyanurate

CAS No. 839-90-7

Specifications:

Tests	Specification
Appearance	White powder
Melting point	133.5~137.0℃
pH	6.50~7.50
Hydroxyl value	630~650KOHmg/g
Acid value	≤1.00KOHmg/g
Loss on drying	≤0.20%

Package: 25Kg/Bag or 500Kg/Bag

Application:

- It is mainly used for the preparation of polyester heat-resistant insulating varnish, and the resin for varnish with excellent heat resistance (F-H grade), flexural resistance and thermal shock resistance.
- It can also be used in coatings, medicines, pesticides and organic synthesis intermediates, etc.

Storage: Keep the container tightly sealed and store in a cool, dry place.

Recommend Shelf Life: 12 months.
