

# LANNOX-1520

## Antioxidant 1520

CAS No. 110553-27-0

### Specifications:

| Tests               | Specification                     |
|---------------------|-----------------------------------|
| Appearance          | Light yellow or light pink liquid |
| Assay               | ≥96.0%                            |
| Solubility          | Clear                             |
| Transmittance@425nm | ≥95.0%                            |
| Transmittance@500nm | ≥97.0%                            |

**Package:** 180Kg/Drum

### Application:

- LANNOX-1520 is a multifunctional hindered phenolic antioxidant that effectively prevents gel formation. It is suitable for synthetic rubbers such as BR, NBR, SBS, SBR, and thermoplastic elastomers, and is also applicable to polymers in lubricants and plastics. It requires only a small dosage, provides excellent antioxidant performance, and offers polymers superior processing properties as well as long-term resistance to aging and degradation.

**Storage:** Store in a cool, dry, and well-ventilated place, away from fire, heat sources, strong oxidizers, and strong reducers, according to general chemical storage practices.

**Recommend Shelf Life:** 12 months.
