

YAC-N1213

n-Dodecyltrimethoxysilane

CAS No. 3069-21-4

Specifications:

Tests	Specification
Appearance	Colorless transparent liquid
Assay	≥95.0%
Color (Pt-Co)	≤30
Refractive index (n _D ²⁵)	1.4220~1.4320

Package: 180Kg/Drum or 850Kg/IBC

Application:

- It has excellent hydrophobicity; It can be used as a waterproof agent through immersion;
- It can be used for the treatment of mineral fillers and pigments or inorganic surfaces;
- Protect historical relics or other products from water, corrosion, freeze or efflorescence.

Storage: Keep away from open flames, hot surfaces and sources of ignition. Keep container tightly closed.

Recommend Shelf Life: 12 months.
